Recent Advances and Future Prospects in iRCCE and SCC-MPICH

Wildcard Extensions for iRCCE

```
if(my_rank == 0) { // Master: receive results from workers:
    for(i=1; i<num_ues; i++)
        iRCCE_recv(buf, iRCCE_ANY_LENGTH) iRCCE_ANY_SOURCE );
}

also [ // Worker: good result to master:
    else { // Worker: send result to master:
        iRCCE_send(result, worker_specific_length, 0);
}</pre>
```

SCC-MPICH: Yet Another MPI Library for the Intel SCC
